

Technological Initiative Pilsen, z.s.p.o.

ANNUAL REPORT 2013

History:

Technological Initiative Pilsen (hereinafter TIP) is an association of legal entities, which was founded in 2012 and was entered into the register of associations of legal entities by the Regional Authority of the Pilsen Region, at the Department of Internal Affairs and Regional Trade Office on 13 June 2012 under the number 3/S/2012.

The reason for its foundation was to associate entities with significant developmental and technological potential in the Pilsen region in order to enhance mutual cooperation and competitiveness. The Association currently has nine members, including major companies of international significance, and other associated partners. The Association has also started a number of interesting projects that focus not only on securing benefits for members or partners, but also on supporting the entire region.

Vision:

An association of technological companies formed on the basis of mutual benefit. The association co-ordinates the workload of highly skilled workers, especially development engineers, development workers and workers. The association helps to optimize the requirements of their work and/or fluctuations in their occupancy and performance. The Association provides a suitable platform for meeting and managing the discussions of individual members. The Association coordinates procedures and promotes common interests. The Association cooperates with the public sector and educational institutions.

Main objectives:

- creation of an environment for cooperation of the Initiative's members in the area of development, science and research,
- creation of an environment for efficient sharing of TIP member resources,
- protection and enforcement of the general and ethic interests of TIP members,
- support for the creation of a positive image for TIP members,
- support for TIP members when maintaining and developing relationships abroad,
- support for TIP members' behavior in conformity with usual business practice, fair competition and good manners,
- joint projects implementation.

Activities in 2013

In 2012 - 2013, a total of nine meetings of members and associated partners of TIP were organized. Hosting companies were: Gerresheimer Horsovsky Tyn, GRAMMER CZ, EvoBus Bohemia, Driessen Aerospace, MECAS ESI, GOLDRATT CZ, SWA, ZF Engineering Plzeň and Blue Projects Agency.

On 4th September 2013, presentation of state-of-the-art 3D print technologies took place at the headquarters of EOS GmbH Electro Optical Systems in Krailling near Munich.

On June 2013, TIP became the member of Committee for technical education, which was created under the auspices of the City of Pilsen.

From 3rd June 2013, the first billboard by TIP is on public display in Pilsen, having been installed within the TIP project to enhance the attractiveness of technical study programmes in the Czech Republic.

TIP representatives talked about supporting technical fields on the Czech Radio Pilsen.

TIP representatives debated within the 11th Štiřín Talks. Johannes Heidecker, President of the Technological Initiative Pilsen, and Wolfram Motz, Managing Director of MBtech Bohemia, participated in the panel discussion "Competitiveness through Innovations and Creativity".

On 19 March 2013, a working group to support technical education met in Pilsen. The group was made up of representatives of the Technical Initiative Pilsen ('TIP') and TEO – The Association for the Development of Technical Vocational Education and the Development of Human Resources in the Tachov Region ('TEO'). The working group decided upon the following nine recommendations for working together in supporting education in technical fields. It was created initiative Technology lined with gold.

Plans for 2014

In 2014, the Association will continue with the initiated projects as well as joint meetings of all members and associated partners, project of joint purchasing, common trainings and project of support of technical education.

In 2014, TIP plans initiate media campaign concerning support for technical education more intensively. Within this campaign each member, who wants to support this initiative, publish billboard Technology lined with gold.

Each member and partner of association starts to cooperate with specific Primary or Secondary School to support technical education.

In 2014, TIP organizes election to the Board.

Representatives of the TIP will be find new opportunities for cooperation how to increase benefits for all subjects, who are interested in TIP.

This year, the TIP Association plans to significantly expand its membership and partner base.
