

Industry Meeting

Mechatronics | Automation | Electronics | Metal | Plastics

Developing markets together – getting to know new suppliers, customers and partners – start-ups meet established companies – maintaining value streams within the region

The industry meeting, organized by the Bezirk Oberpfalz and the Cluster Mechatronik & Automation, is the free-of-charge, compact platform of and for manufacturers, suppliers and engineering services providers in the fields of automation, mechatronics, electronics, metal and plastics. The table-top exhibition keeps the effort for the companies low. The focus is not a “trade-show like appearance”, but the intensive conversation with the companies next door. Attention please: The number of positions is limited!

Visitors – also from other industries – are more than welcome!

Every exhibitor will be provided with a table (some 70 cm wide) for exhibits, flyers and brochures. A rollup can be placed behind it.

When **Thursday, November 29, 2018**

14:00 to 17:00 (setup possible from 13:00)

Where **University of West Bohemia in Pilsen**

Library of the University
Univerzitní 2746/20, CZ-301 00 Pilsen

Parking Technická 8, CZ-301 00 Pilsen (between NTIS and library)
