

Technological Initiative Pilsen, z.s.p.o.

ANNUAL REPORT 2018

History:

Technological Initiative Pilsen (hereinafter TIP) is an association of legal entities that was founded in 2012. Case number L 6909 kept by the Regional Court in Pilsen.

The reason for its foundation was to associate entities with significant developmental and technological potential in the Pilsen region in order to enhance mutual cooperation and competitiveness. The Association currently has twenty members, including major companies of international significance, and other associated partners. The Association has also started a number of interesting projects that focus not only on securing benefits for members or partners, but also on supporting the entire region.

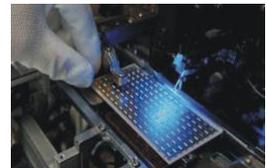

Vision:

An association of technological companies was formed on the basis of mutual benefit. The Association provides a suitable platform for meeting and managing the discussions of individual members. The Association coordinates procedures and promotes common interests. The Association cooperates with the public sector and educational institutions.

Main objectives:

- creation of an environment for cooperation of the Initiative's members in the area of development, science and research;
- creation of an environment for efficient sharing of TIP member resources;
- protection and enforcement of the general and ethical interests of TIP members;
- support for the creation of a positive image for TIP members;
- support for TIP members when maintaining and developing relationships abroad;
- support for TIP members' behavior in conformity with usual business practices, fair competition and good manners;
- joint projects implementation

Activities in 2018

- **General Meetings**

On 21 March 2018, the first TIP General Meeting of 2018 was held, this time in EvoBus Česká republika in Holýšov, where components for buses from the Mercedes group are produced. The director of the factory, Mr. Volkan Tural, presented to the participants the very interesting manufacturing facilities of the company. During the meeting, financial results for 2017 were approved, and activities over the past year were evaluated, including activities planned for this year.

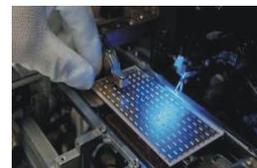

On 25 June 2018, the second TIP General Meeting of 2018 was held, with ZF in Staňkov, where axles for agricultural and construction machinery, along with small gearboxes for excavators and gearboxes for electric high-lift trucks, are assembled. The manufacturing plant director, Stefan Washer, presented the entire assembly plant to the bidders, including the company's administrative facilities. During the meeting, the pending as well as new projects of nvias.org were discussed, and future joint cooperation was agreed in the field of technical education support. In addition to the joint support of nvias.org, TIP wishes to initiate cooperation of the individual member companies with the said organization in the field of technical education support.

- **TIP General Secretary at Whitford Corporation presentation**

Pavel Duchek, TIP General Secretary, accepted an invitation received from the Embassy of the USA in the Czech Republic, Whitford Corporation and the University of West Bohemia (Západočeská univerzita v Plzni – ZČU) and took part in a gala reception on 10 April 2018 on the occasion of [Whitford Corporation](#) entering the Czech market. The reception took place at the Ambassador's residence in Prague and included a technical presentation of Whitford

Corporation's competencies in altering the friction characteristics of surfaces. The presentation was made by Mr. Valer Chrenko from Whitford Corporation – Central Europe. ZČU representative, Mr. Petr Kavalír, head of ZČU's New Technologies Research Centre, stated that ZČU had begun collaboration with Whitford Corporation in the field of applying specific structures to base materials.

Future Factory Competition results

8th Feb. 2018, a ceremonial evaluation and award ceremony took place in the Kulturka University of West Bohemia premises within the Future factory competition. The competition was focused on turning gaming time into learning time and using Minecraft for tech education. We are very pleased with the work of all participants.

During competition was working with 160 students on 8 workshops in 4 cities. To the competition was registered 45 students in 20 teams from 5 cities. Final submission was delivered by 20 students organised in 8 teams from 3 cities.

GENERAL PARTNER

Plans for the Year 2019

In 2019, TIP will continue:

- meetings of all members and associated partners;
- supporting the technical education of young people;
- extending the membership and partnership base to include additional interesting members and cooperating partners

A Word in Conclusion

Finally, let me thank all representatives of member and partner companies and organisations for their active participation in the Association's activities in 2018. Among other things, we managed to support the interest of young people in technical education, organise a competition for elementary school pupils, and organise interesting joint meetings with our partners.

Let me thank all our members for their work for the Association, our partners for the duration of cooperation, and especially the members of the board of directors and all those who dedicated their time to the activities that TIP is devoted to. Our greatest good fortune has been, is, and always will be, the great people with whom we have the opportunity to cooperate.

I look forward to further cooperation and new projects, initiatives and members or partners. I believe that the upcoming year will be just as successful.

Sincerely

Ing. Pavel Duchek
General Secretary
Technological Initiative Pilsen, z.s.p.o.
